SMALL  
WORLD®  
BY MARLIP  
CONCEPTS

**SMALL WORLD by Marlip A/S** is a Danish company who has been producing furniture for more than 25 years.

In SMALL WORLD we focus on **high safety, high production values** and **high quality** in a **timeless and functional design**. By designing and manufacturing products for children we have assumed a great responsibility and we strive to deliver the best quality and safety for your child -with soft handles, curved and round corners, furniture which are thoroughly tested and have passed the highest safety standard norms/tests on the market.

We develop **flexible and functional** furniture put together as exclusive & harmonious concepts for child rooms, creating safe settings for your child.

# A safe environment in the children's room!

## MODERN

Page 4-7

*With this modern and timeless program you can personalize your furniture, as you choose which front colour the drawers and doors should have. The quality of this program is very high, because of its unique 3 layer surface treatment & exclusive natural leather handles.*

## Classic

Page 8-11

*SMALL WORLD's classic & well-known furniture program – designed in 1999 with soft curves & handles. With the famous and replaceable oval, you can personalize with your name or choose between the many different motifs and colours.*

## BASIC

Page 12-15

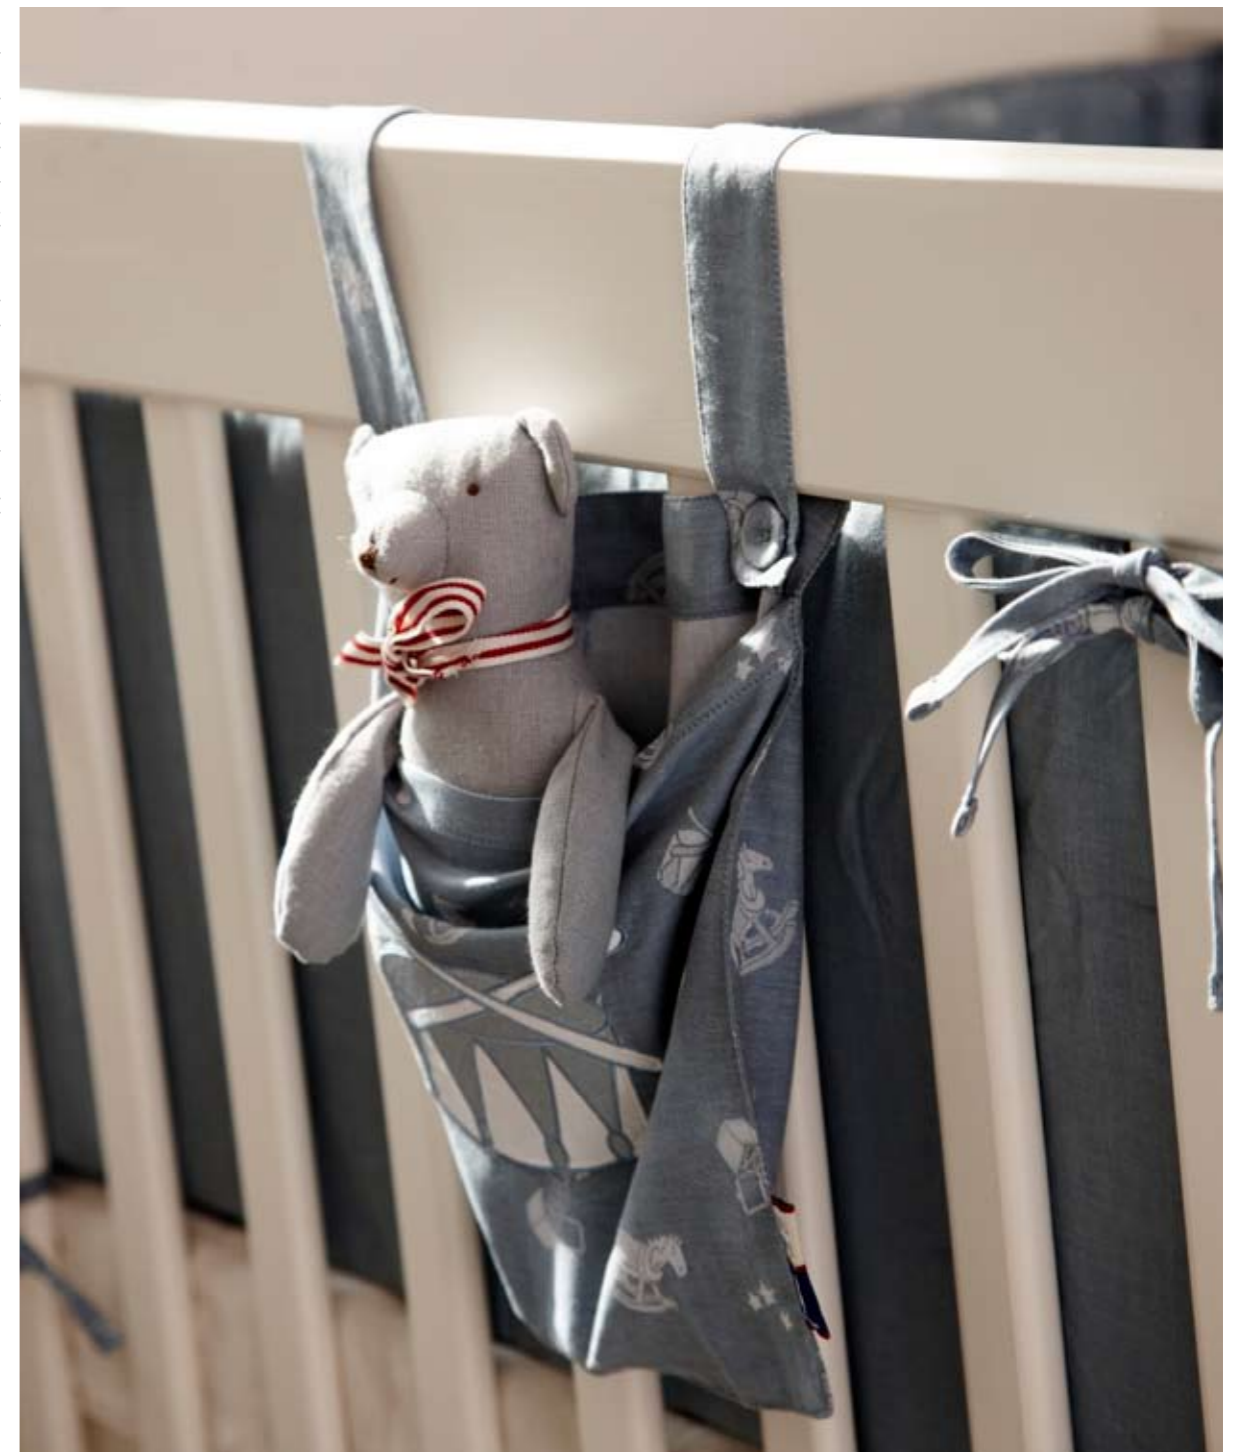

*The basic line furniture is designed in a minimalistic style with clean & straight lines – a timeless design for the trendy or older children. This program is designed to embrace the worldwide trend of simplicity in life.*

### As close to **HANDMADE** as you can get – and all this we do in an **ENVIRONMENTALLY FRIENDLY** way.

All our products are made of solid and knotless pinewood of best quality – produced in Denmark at own factories. As SMALL WORLD attaches great importance in taking care of the environment, we use the most clean and environmental friendly surface treatment on the market.
